**Ref.: 03/10/2020/KP/OB.**

Dear Sirs,

ORLEN OIL operating as a part of the Capital Group of Polski Koncern Naftowy ORLEN S.A. is responsible for comprehensive manufacturing and distribution of lubricants.

PLATINUM MAXEXPERT FR 0W-30 the new generation synthetic, multi-seasonal, mid-SAPS engine oil guarantees lower fuel consumption while maintaining adequate protection of all engine components. Owing to a unique technology, the oil provides exceptional level of protection at cold start, both in Diesel and petrol engines. It is ideal for city traffic and on highways.

Benefits:

- reduction of engine operation costs through fuel economy,
- quick start and adequate lubrication in low temperature,
- exceptional protection of engine components when using Stop-Start systems,
- long engine and filter lifetime,
- ideal temperature and oxidation stability,
- engine cleanness due to retention of soot in suspended state,
- maintaining its properties between oil change intervals,
- reduced emissions of compounds harmful to the natural environment.

PLATINUM MAXEXPERT FR 0W-30 has been officially approved for the PSA Group vehicles (Peugeot, Citroën, DS, Opel) covered by the PSA B71 2312 specification and meeting Euro 6 emission standards. Simultaneously, hereby we would like to inform You that Orlen Oil recommends PLATINUM MAXEXPERT FR 0W-30 oil can be used for flooding the engines of FCA concern cars, covered by the Fiat 9.55535-DS1 and Fiat 9.55535-GS1 for which the manufacturer recommends the oil in the viscosity class and quality specified in the product description.
